

# THERAPY WEST, INC.

## COVID-19 PROCEDURES

Each parent must sign a new waiver that agrees to self-report COVID-19 symptoms and exposure, as well as any positive test results of COVID-19 for anyone in the household.

Your child's therapist will meet you at your car at the designated "entrance" location for the facility.

- Parent will be asked the following questions. If the answer is yes to any of these questions, your child cannot be seen in the clinic and will be offered telehealth.
  - Have you or anyone in your household had any of the following symptoms during the past 14 days - runny nose, sore throat, cough, fever, loss of smell and/or taste, shortness of breath?
  - Have you or anyone in your household been exposed to COVID-19?
  - Have you used public transportation (including plane, bus, or train) in the last 14 days?
- Therapist will check the child's temperature. Any child with a temperature of 99.9 or higher, cannot be seen in the clinic and will be offered telehealth.
- Therapist will check the child's O2 saturation. Any child with an O2 saturation of 94 or lower, cannot be seen in the clinic and will be offered telehealth. Individuals whose O2 saturation is lower because of a health condition will need to show a Dr's note.

Parent must supply a bag in which your child's shoes will be placed before entering the clinic. The shoes will remain in the bag until your child exits the facility.

Parents remain outside the facility but must remain available (via cellphone) at all times. Parents must return at the 50-minute mark to pick up their children.

Your child and the therapist must wash hands for 20 seconds at start and end of session.

The therapist must wear a mask at all times. Children over 2 years old will be encouraged to wear a mask but it is not required. Parents will need to provide a mask for their children.

If your child demonstrates any signs of illness, the session will be terminated & the parent will be contacted. If a child has a medical condition in which these symptoms are displayed, a note from the physician is required.

Your child is returned at the designated "exit" location for the facility.

All equipment and toys will be sanitized after each use.

*thank you for your cooperation in keeping everyone safe!*
